## Technical Skills

Programming Languages: JavaScript, Python, Java, C#

Frameworks: React, Node.js, Django, .NET Core

Databases: SQL (PostgreSQL, MySQL), NoSQL (MongoDB)

Tools: Git, Docker, Kubernetes, AWS, Azure, REST APIs

Methodologies: Agile/Scrum, CI/CD, Test-Driven Development

## Professional Experience

Senior Software Developer

\*Tech Solutions Inc. | Jan 2020 - Present\*

Develop and maintain web applications using JavaScript (React) and Python (Django)

Design and implement RESTful APIs for client-server communication

Optimize existing codebase, improving performance by 30%

Conduct code reviews and mentor 3 junior developers

Implement CI/CD pipelines using GitHub Actions and Docker

Software Engineer

\*InnovateSoft | May 2017 - Dec 2019\*

Built mobile applications with React Native and C#/.NET

Integrated third-party services (Stripe, Twilio) via APIs

Wrote unit/integration tests (Jest, pytest), achieving 95% test coverage

Collaborated with product teams using Agile/Scrum

Projects

E-Commerce Platform (Full-Stack)

Developed with Node.js + React, deployed on AWS

Implemented payment gateway and order tracking system

Reduced API response time by 40% through optimization

Inventory Management System

Built with Python/Django and PostgreSQL

Automated reporting features saved 20+ hours/month

## Education

B.S. Computer Science

University of California, Berkeley | 2017

Relevant Coursework: Algorithms, Data Structures, Software Engineering

## Certifications

AWS Certified Developer

Microsoft Certified: Azure Developer
